SUMMARY

Two-year experienced Software Developer with hands on experience of designing, developing, and maintaining web as well as software applications. Highly skilled at collaborating with team members to ship products within deadlines. Extremely efficient hard worker with experience working at the global company First American Title. My experience working at First American has allowed me to hone my skillset in working in a fast-paced agile environment to meet deadlines. Eager to learn more and apply the knowledge I gain!

PROFESSIONAL EXPERIENCE

ASSOCIATE SOFTWARE DEVELOPER

First American Title Company

Oct '21 - Present

Santa Ana, CA

- Responsible for developing/designing/updating/maintaining questionnaire attached to production site utilizing aspects of **HTML**, **CSS**, and **JavaScript**.
- Migrate questionnaire to **AEM** which required rebuilding the database as well as developing hundreds of complex workflows and fragments from scratch utilizing **JavaScript**.
- Work intimately with engineering team that handles the development of production website where questionnaire is based.

CLOUD ENGINEERING INTERNSHIP

First American Title Company

Aug '21 - Oct '21

Santa Ana, CA

- Managed and maintained **AWS** cloud servers in production and non-production environments.
- Debug existing high-level **Python** code base through the creation of **unit tests**.
- Hands on experience in the creation of automation **API's** to be used by the Information Security sector at First American.

SECOPS ENGINEERING INTERNSHIP

First American Title Company

Jun '21 - Aug '21

Santa Ana, CA

- Assisted SecOps teams with ticket monitoring/assessment, analyzing issues/data, and utilized **Excel** to compare and show the deltas of data.
- Monitored endpoint compliance issues and ran necessary scans using **Tanium** to ensure software compliance.
- Designed and **refactored** code for a First American SecOps web page as well as the company firewall blocked web page.

EDUCATION

VETERINARY TECHNICIAN ASSISTANT

Alisos Animal Hospital

Jun '15 - Mar '20

Lake Forest, CA

- Assisted doctor with medical treatment including responsibilities such as; effectively communicating treatment and history with clients, drawing blood, administering vaccinations, bandaging wounds, caring for hospitalized patients, and maintaining a supportive role in surgical procedures.
- Managed new veterinary assistant hires through delegating tasks and demonstrating examples of how the hospital can run efficiently.

MY APPLICATIONS

MY SOUTHERN CALIFORNIA SURF BUDDY

[Live](#) || [GitHub](#)

- A dynamic full-stack web application for Southern California locals to check weather conditions quickly at their favorite beaches.
- Multi-themed frontend UI that utilizes **React.js** and **CSS3**.
- Employs the use of **Fetch** requests to receive data from **OpenWeatherMap API** and **Google Maps API**.

MAS' SURF SHOP

[Live](#) || [GitHub](#)

- Full Stack web application designed to simulate the experience of an online surf shop.
- Manipulated data with **Node.js**, **PostgreSQL**, and **Fetch** to store products in database.
- Passed product data and callback functions as props to **React.js** components rendering to the **Virtual DOM**.

JavaScript / NPM / Node.js / OOP / Palo Alto / PostgreSQL / Postman / Python / REST / React.js / Sass / Serverless / Tanium Visual Studio Code

WHAT MOTIVATES ME

- Solving complex technical challenges.
- Learning new tools and technologies.
- Building solutions to pre-existing issues.
- Working on a cohesive team.
- Helping others grow their technical skills.
- Meeting goals and deadlines.

HOBBIES

SIDE PROJECTS

Allows me to stay in tune with current tech trends and learn new skills and software languages.

SURFING

Allows me to reach my flow state and is my favorite way to exercise.

BASEBALL

Taught me to effectively collaborate and provide leadership on a team.
